

# Teacher – Student Relationship Policy

TUIS follows English National Curriculum of England in conjunction with Uzbek Education system.

## Teacher - Student relationship:

School is a place where you deal with very young people (students). It is the responsibility of the staff to see that the students are treated with great care and caution to avoid any harm, intended or unintended, to any student.

Students are the responsibility of the whole school staff, especially when present in the school boundaries.

The relationship between teacher and students should be one of cooperation, understanding and mutual respect. The teacher has the responsibility to provide an atmosphere conducive to learning and to motivate each student to perform within its capacity.

### Your professional relationship may be compromised if you:

1. According to TUIS child protection policy, a teacher can't be alone in the classroom with a student. There must be at least two students and a teacher in a class.
2. Get too friendly with students e.g keeping your hands on their shoulders or allowing them to keep their hand on yours, accepting chewing gum etc.
3. Invite students to join your personal electronic social networking site or accept students' invitations to join theirs.
4. Attend parties or socialise with students.
5. Invite a student or students back to your home or attend theirs without an appropriate professional reason and without the consent of their parent.
6. Transport a school student in your vehicle without prior approval from the administrator or parent.

**We encourage staff** to develop **positive and professional working relationship** with student to support the educational outcomes and to achieve constructive interactions between students and the school. We discourage **friendship and socialization**.
