

Parents / Guardian Obligations

TUIS follows English National Curriculum of England in conjunction with Uzbek Education system.

We expect from our respected parents and guardians to uphold a civilized and cultured conduct when meeting teachers, staff or other children and parents at TUIS.

Important Issues with Parents If there is an issue between pupils or a member of staff & a pupil, there seems to be a habit for the parents to conduct private investigations and for their child to influence other pupils to take their side. Other pupils feel pressured to support their friends and hence the facts are lost. Once this happens the truth is also lost. Parents **MUST** be persuaded not to conduct private investigation. We may not be able to always stop this from happening outside the school but we must **NOT** consider their finding in our investigations and we must discourage this from taking place. TUIS Director and Head Teacher treat all parents, children and staff equally and they strongly discourage biased acts whenever they occur.
